
New for 2020
1-Day refresher course - booking now open
for the Take 3 Parenting Programme

In response to demand we would like to introduce a **one-day refresher course** in the Take 3 Parenting Programme.

This continuing professional development (CPD) one-day course offers a review of T3 materials, trouble-shooting, and supervision in working with challenging situations within parenting support.

We are also offering updates for facilitators using the newly released (soon to be published) 2020 sessions on the adolescent brain and media use.

The 1-day refresher course is suitable for:

- practitioners who have already attended our 3-day T3 workshop
- practitioners currently running, or have run, T3 groups and/or 1-2-1
- practitioners who have not yet trained in T3 but are interested in knowing more

These refresher days have been specifically tailored around feedback from both facilitators and managers, and are available on a commissioned basis only, at £2000 for up to 14 delegates (equivalent to less than £145 per person)

Further information about evaluations, the trainers, and their experience is available on our website: <http://www.tugtraining.co.uk>

Please feel free to give Nicky a call to discuss service requirements as we can tailor courses to suit.
